

## IMG Mountain Baker Easton and Coleman-Deming Equipment List

Mt. Baker can present a myriad of conditions, from very hot to very cold. Having the right equipment is paramount to your success. Below, you will find a detailed list of gear **required** for this climb, unless otherwise noted. Items that are available to rent are indicated, and can be reserved by completing and submitting the [Gear Rental Form](#). **Rental forms are due no later than 2 weeks prior to the trip start date.** Forms submitted within 2 weeks of your program may not be fulfilled. Any available gear will be sent with your guides to meet you the first day of the program.

All programs include a detailed gear inspection with the lead guide. Please bring all the items listed and your guide will help you choose a weight conscious and conditions appropriate layering system. If you are choosing between multiple pieces of gear, bring both, and your guide will help you choose. For more info on gear, check out our [Boot Blog](#) and [Layer Guide](#) written by Supervisor Porter McMichael to help you pick the gear that's right for you.

### CLOTHING

Item	Description	Guide Recommendation
Underwear & Sports Bras 	1-2 pairs. Wicking synthetic or wool, no cotton. For those who use sports bras, it is nice to bring more than one.	Personal Preference
Socks 	Bring 3 pairs of wool or wool-synthetic blend socks (no cotton). You might also want to bring a pair of thin synthetic liner socks to help prevent blisters. Your socks can be thin or thick, whatever makes your boots fit and will keep your feet warm.	Personal Preference
Lightweight Base Layer Top 	1 non-insulating, moisture wicking synthetic material base layer. This piece should be long-sleeved. Many guides prefer "sun hoodies" for this layer.	Outdoor Research Echo Hoody <a href="#">Men's/Women's</a>  Black Diamond Alpenglow Hoody <a href="#">Men's/Women's</a>
Lightweight Base Layer Bottom 	1 pair of moisture wicking merino wool or polyester long johns that can fit underneath your soft shell pants.	Smartwool All-Season <a href="#">Men's/Women's</a>

<p>Midweight Insulating</p> 	<p>Bring a mix of midweight insulating layers that you can use in a variety of combinations together to adjust your temperature. A good system could include a fleece pullover, an insulated vest, and a light synthetic/down jacket. Bring 3 distinct layers that are <u>not</u> the same. To read more on mid-layer systems check out our <a href="#">Layer Guide</a>.</p>	<p>Patagonia R1 <a href="#">Men's/Women's</a></p> <p>Arc'teryx Atom Hoody <a href="#">Men's/Women's</a></p> <p>Kailas Mont <a href="#">Men's/Women's</a></p> <p>OR Helium Down Hoody <a href="#">Men's/Women's</a></p>
<p>Soft Shell Jacket</p> 	<p>This jacket is light-midweight, breathable, non-insulated, and semi-waterproof. It will be used to cut the wind when it is too warm for insulating layers.</p>	<p>OR Ferrosi Hoodie <a href="#">Men's/Women's</a></p> <p>Kailas Mont Soft Shell <a href="#">Men's/Women's</a></p> <p>Rab Borealis <a href="#">Men's/Women's</a> <i>Available to rent at IMG</i></p>
<p>Soft Shell Pants</p> 	<p>Soft shell pants should fit comfortably and provide a small amount of warmth and waterproofing. <p>Insulated Parka</p> 	<p>A parka is a packable down or synthetic heavily insulated hooded jacket. This should be very warm and substantially heavier than any of your other layers (~2 lbs). This jacket will be worn over all other insulating layers, so make sure it fits on the larger side. <u>This is not the same as a light puffy jacket, down sweater, or ski jacket, and cannot be substituted by extra mid-layers.</u> For more info on parkas, check out our <a href="#">Layer Guide</a>.</p>	<p>OR Super Alpine Parka <a href="#">Men's/Women's</a></p> <p>Kailas C1 Jacket <a href="#">Men's/Women's</a></p> <p>Rab Positron <a href="#">Men's/Women's</a> <i>Available to rent at IMG</i></p>
<p>Hard Shell Jacket &amp; Pants</p> 	<p>Shell layers should be Gore-Tex or equivalent waterproof material, built to withstand wind and wet conditions.</p> <p>This should be an uninsulated shell, not heavy ski jackets/pants. <u>Pants must have full side-zips so they can be put on while wearing crampons.</u></p>	<p>Women's: <a href="#">OR Aspire II Jacket</a> Men's: <a href="#">OR Foray II Jacket</a></p> <p>Kailas Mont Shell Jacket <a href="#">Men's/Women's</a></p> <p>REI Rainier Full-Zip Pants <a href="#">Men's/Women's</a></p> <p>Black Diamond Stormline Pants <a href="#">Men's/Women's</a> <i>Available to rent at IMG</i></p>
