KILIMANJARO CLIMB & SAFARI WITH IMG

Kilimanjaro is one of the Seven Summits of the world and highest mountain in Africa! Since organizing our first Kilimanjaro expedition in 1989, every one of our Kilimanjaro teams has had a high percentage tag the summit of this majestic peak. We are proud of the track record we have established over 30 years with our Kilimanjaro trips and we know that we offer a fantastic trip for the money. We hope you can join us!

THE CLIMB
We climb the Machame Route, taking us past some of Kilimanjaro’s most spectacular scenery and away from the crowds on the normal route. Since we have a large difference in altitude between the start of the climb and the summit, we get the opportunity to go through many vegetation zones. We don’t rush our ascent! Our program gives you a seven-day climb. We have learned that the extra time is well worth it for a successful and fun trek, giving climbers a far greater chance of standing on top and far less chance of altitude sickness. We will descend via the Mweka Route, the descent route required by Kilimanjaro National Park. The Kilimanjaro National Park staff has done a lot of work in recent years on this trail (it is now much better drained, so less muddy than in the past). The camps have also been improved, and there are Park rangers stationed at the camps to ensure that porters are not overloaded and that rubbish is removed. There is also emergency rescue available (by jeep) from the second camp (Shira Plateau). While Kilimanjaro is considered a trek rather than an actual climb, keep in mind that Kilimanjaro is very physically demanding. The group equipment and most of our personal equipment will be carried by our Chagga porters. Our Chagga staff will also take care of the cooking chores.

FEE SCHEDULE
Non-refundable application fee* due at registration applies to program fees. Final balance of fees are due 120 days prior to trip departure (130 days prior for December Trip). Please refer to application package for payment instructions. Program fees are quoted in US dollars. All fees and payments are non-refundable and non-transferable. Payments must be received by IMG on or before the due dates. Bank wire instructions are provided on request.
While non-technical, Kilimanjaro is a high-altitude summit and must be taken seriously. Climbers are at health risk from the altitude. Our guides always carry a Gamow (hyperbaric) Bag, pulse oximeter, and supplemental oxygen in case of Altitude Sickness. A couple hours in the bag can turn around Acute Mountain Sickness (AMS) before it forces you down or becomes life threatening.

THE SAFARI
Our Safari program includes four days/three nights on safari where you’ll enjoy animal viewing in the classic Serengeti and Ngorongoro Game Parks. Our longtime African Safari outfitters use 4WD Land Rovers or Land Cruisers for the safari, with “pop top” roofs that allow participants to stand up for viewing and photography. The drivers do a great job finding critters for some world-class game viewing. Depending on the time of the year, we will visit different areas of northern Tanzania to take advantage of the seasonal differences. You’ll enjoy the private camps each evening (February – September). The December trip offers classic safari lodges (early registration is advised as demand is high and space is quite limited!) We add the benefit of a beautiful one-way Serengeti flight over Africa (easier, faster, more time to see animals, less time spent driving). Our groups usually fly out to Serengeti and drive back to Arusha with stops at Olduvai and Ngorongoro along the way, depending on the season (safari plans are subject to change).

Hybrid Tent Camps (February through September) For the drier season trips we offer a “Hybrid” style safari where our teams will stay two nights in a traditional “bush” safari with deluxe tents under the stars, followed by a final evening at one of Tanzania’s premium lodges. You’ll enjoy comfortable accommodations and restful evenings in the heart of the bush around the campfire as well as fine African hospitality and dining. The tent camps and lodge complement the Tanzanian experience as a whole, providing the best authentic and natural safari offered in conjunction with a climb of Kilimanjaro.

Premium Lodges (December only) Our December trip utilizes the safari lodges located in the Serengeti, Ndutu and Ngorongoro areas as we enter the rainy season (still is OK to climb). This places us in the area of where the giant herds of wildebeest and zebra start to gather at this time of the year. The same attention to detail and quality that clients experience on earlier trips is extended to the December Lodge Safari. Early confirmation is necessary during this very popular and festive time in Tanzania.

THE GUIDES
Every one of our climbs is led by a top-notch IMG high-altitude mountain guide, well-trained in all elements of climbing as well as wilderness medical procedure. IMG Senior Guides have climbed and trekked all over the world and are always excited to visit Tanzania.

Assisting our IMG Guide is a first-class staff of registered African Chagga guides and porters, all local people from the Chagga tribe who live right at the base of Kilimanjaro. Many of them have been on dozens of IMG trips over the years. They know we’ll be coming back, they like working with us, and they deliver high quality service. We also employ a chief cook, several assistant cooks, and servers.

LOCAL CONCERNS AND RESPONSIBILITIES
We take great pride in the long-term relationships we have built with our local staff. They do a great job, we pay and tip them well, and they enjoy working for IMG. IMG supports the Recommended Guidelines for Proper Porter Treatment. We make sure that the IMG porters have adequate clothing, equipment, shelter, sleeping arrangements, food, cooking equipment and water. Sick or injured porters are properly cared for. All loads are weighed to ensure that porters are carrying loads that don’t exceed their physical ability or legal limits. Porters are paid a fair wage for their work and are paid tip money directly from the tip pool at the end of the climb (no middleman taking a cut). We encourage our team members to observe and participate in the staff tipping session at the end of the climb.

LEAVE NO TRACE
IMG is committed to Leave No Trace. On Kilimanjaro, this means working with the Kilimanjaro National Park staff to ensure that the Park regulations are followed. Garbage is carried down from the climb and turned into the Park Rangers, per the regulations. Pit toilets are used at the camps to ensure that human waste is disposed of correctly. We will have our own private toilet, in addition to the Park toilets at the camps.

THE ODDS & ENDS:

Single Supplement
Accommodations are based on double occupancy. If you would like a single room in the hotel in Moshi before and after the climb, this is available for an additional $300. A single room during the safari is available for an additional $300. If we cannot pair you with a roommate, you will be charged the single supplement fee.

Travel Insurance
Evacuation & medical expense coverage sufficient for your activities and destination is required, and must be inclusive of 6000 meters in elevation for the duration of the IMG program. Trip cancellation/interruption coverage is strongly suggested due to our no-refund policy.

Flights
Our Kilimanjaro program itineraries take advantage of the direct flights between Amsterdam and Kilimanjaro International Airport (JRO) via Delta/KLM. The KLM flights arriving to JRO on Day 1 of the scheduled itinerary and departing JRO on Day 13 of the scheduled itinerary are the GROUP FLIGHTS. Those arriving/departing on KLM Group Flights will be transferred between JRO and lodge (included in the cost of your program fees). If you are on a different flight, please be advised that there may be additional cost to you for airport transfers and any additional lodging required - please contact our office for details. CLIMB ONLY or SAFARI ONLY participants, please contact our office for details on your itinerary.

Passport & Visa
A valid passport with at least 6 months of validity is required. A “well-traveled” passport should have extra blank pages available for visa stamps. We suggest that you make a copy of your passport and keep it with you during your travels. Familiarize yourself with Travel Advisories and entry requirements available on the U.S. State Department website. Advanced visas are not required for entry into Tanzania, and you can obtain a tourist visa on arrival at the JRO airport for $100 USD (cash). It is also possible to get the visa online before departure.

Immunizations
Participants are required to comply with the covid vaccination and documentation requirements of the destination country or area. For the most up to date information, visit the website of your destination country embassy in the USA, US Embassy website for your destination country, the CDC, and US State Dept Travel pages. In general, a digital vax certificate (with QR Code) is the gold standard for international travel (available from your State health dept or Globalhaven).

Weather
January and February and mid-June through mid of October are normally very stable weather periods. December can get a bit wetter, but is still a good time to climb. That said, it is always difficult to predict the exact weather conditions we will encounter during our ascent. Warm rain can occur down low and we can experience cold and windy conditions higher on the mountain any time of the year. It is not unusual for the temperatures to be well below freezing on summit day before the sun comes up. A down jacket (or equivalent) is required. For example the Outdoor Research Chaos or Virtuoso jackets work perfectly as the required parka. We expect that the weather will be perfectly reasonable but it is important to prepare for all possibilities. Safari and travel days should be comfortably warm and the evenings may require a light sweater or jacket.
